🧑🏻‍💻 Work experience

Senior Mobile Platforms Engineer

[Azerconnect LLC](#), Azerbaijan, Baku - (15/07/2022 - present)

We are building Intranet Application of Azerconnect for employees. The app including biometric authentication, deep linking, custom UIs, etc. It includes Android and iOS and we are planning to build web version with Flutter. Here is [Play Store link](#).

Flutter Software Engineer

Starex.az, *Azerbaijan, Baku – (06/10/2021 - 01/06/2022)*

Basically, I had worked on Starex mobile application. It is available in Google Play, AppStore and App Gallery. I have refactored app to clean architecture and written unit tests for features. I have implemented useful features, like cash back mechanism, stories like WhatsApp (from 0, not using another library), password autofill in login, CI (Continuous Integration) in Gitlab for unit tests, calculator page for weight and volumetric weight calculations, Bon.az integration in shops list, searching shops in list, Trendyol activation code page, promo code functionality for points (stations), enable/disable functionality for email and sms notifications and etc.

Lead Flutter Software Engineer

Frazex LLC, *Azerbaijan, Baku – (01/05/2021 - 15/09/2021)*

Here I have mainly developed e-commerce projects and made support for available apps. I have refactored different apps like Tezibu partner, courier and etc and give support for Optimal Club, Tezibu client and different apps. I have implemented folder structure for apps in our company and implemented chat functionality for Tezibu apps with SignalR in Flutter. Beside them, I was lead for team that had 4 Flutter Developers.

Flutter Developer

Fonibo LLC, *Azerbaijan, Baku – (01/07/2020 - 01/05/2021)*

Fonibo was startup about delivery like Bolt and others in Azerbaijan. We have build client and courier apps. We have used Bloc state management, http library and other useful tools for this work. Mainly I have worked on 2 projects, courier and client app. Due to pandemic and other financial problems, it was closed.

Android (Java) Developer (Intern)

Crocusoft LLC, *Azerbaijan, Baku – (08/03/2019 - 01/07/2019)*

I have done internship in Crocusoft LLC (Azerbaijan, Baku) as Android Developer (Java). I had mainly used Java, MVP design pattern. After 3 months of internship, they have offered work, but due to my health problems, I can't work at that time.

🛠️ Skills

💻 Technology

Dart/Flutter	JWT	CI/CD
State Management	Gitlab	Firebase
Bloc	TDD	Postman
Provider	Sentry	Atomic Design
Riverpod	Rest API	
Clean Architecture	C++	
Unit Testing	Data Structures	
Design Patterns	Algorithms	
Postgres	SQL	
Socket	Git	
Mason (Bricks)	Github Actions	

🙋🏻‍♂️ Soft Skills

Communicative	Humorous	Critical thinking
Willingness to learn	Mentoring	Friendliness
Respectfulness	Confidence	Enthusiasm
Accepting feedback	Collaboration	Empathy
Self-awareness	Social skills	Planning
Strategic planning	Scheduling	Problem solving

Amateur Skills

UI Kit	Mongo DB	Express.js

Swift   Java   JavaScript

Node.js

🗣️ Languages

Azerbaijani 🇦🇿   **English** 🇺🇸   **Turkish** 🇹🇷
